Objection and Demand to Cease and Desist.

OFFICE FOUND

Occupant of the Office of Prime Minister, Scott Morrison and heirs and successors .

Scott Morrison, trading as Prime Minister,

Whereas;

It has become apparent that an alarming number of professional medical practitioners and technology experts, as well as the leadership of many nations have raised serious concerns regarding the dangerous nature of the technology known generally as "5G" telecommunications. We too, are alarmed and concerned and therefore require you to act accordingly;

01 - Regulators have deliberately excluded the scientific evidence of harm
Stakeholders thus far in the development of 5G have been industry and governments, while renowned international EMF scientists who have documented biological effects on humans, animals, insects and plants, and alarming effects on health and the environment in thousands of peer-reviewed studies have been excluded. The reason for the current inadequate safety guidelines is that conflicts of interest of standard-setting bodies "due to their relationships with telecommunications or electric companies undermine the impartiality that should govern the regulation of Public Exposure Standards for non-ionizing radiation". Professor Emeritus Martin L. Pall lays out the conflicts of interest in detail, and the lists of important studies that have been excluded, in his literature review.

Section 5.5 Negligence

A person is negligent with respect to a physical element of an offence if his or her conduct involves:

(a) such a great falling short of the standard of care that a reasonable person would exercise in the circumstances; and
(b) such a high risk that the physical element exists or will exist;

that the conduct merits criminal punishment for the offence.

as well as;

"The only substantiated adverse health effects caused by exposure to radiofrequency EMFs are nerve stimulation, changes in the permeability of cell membranes, and effects due to temperature elevation. There is no evidence of adverse health effects at exposure levels below the restriction levels in the ICNIRP (1998) guidelines and no evidence of an interaction mechanism that would predict that adverse health effects could occur due to radio frequency EMF exposure below those restriction levels".

which if factual and true, would be in violation of the following legislations and laws:

Criminal Code Act 1995
Section 268.48 War crime—medical or scientific experiments
https://www.legislation.gov.au/Details/C2020C00217

http://www6.austlii.edu.au/cgi-bin/viewdoc/au/legis/cth/consol_act/cca1995115/sch1.html

Chapter 8 Offences against humanity and related offences
Division 268 Genocide, crimes against humanity, war crimes and crimes against the administration of the justice of the International Criminal Court
Section 268.48 War Crime – Medical or Scientific Experiments
OR 268.93 only difference is e) Non-international armed conflict

(1) A person (the ***perpetrator***) commits an offence if:

(a) the perpetrator subjects one or more persons to a medical or scientific experiment; and
(b) the experiment causes the death of the person or persons; and
(c) the perpetrator's conduct is neither justified by the medical, dental or hospital treatment of the person or persons nor carried out in the interest or interests of the person or persons; and
(d) the person or persons are in the power of an adverse party; and
(e) the conduct takes place in the context of, and is associated with, an international armed conflict.

Penalty: Imprisonment for life.

(2) A person (the ***perpetrator***) commits an offence if:

(a) the perpetrator subjects one or more persons to a medical or scientific experiment; and

(b) the experiment seriously endangers the physical or mental health, or the integrity, of the person or persons; and
(c) the perpetrator's conduct is neither justified by the medical, dental or hospital treatment of the person or persons nor carried out in the interest or interests of the person or persons; and
(d) the person or persons are in the power of an adverse party; and
(e) the conduct takes place in the context of, and is associated with, an international armed conflict.

Hosea 4:6
"My people are destroyed for lack of knowledge; because you have rejected knowledge, I reject you from being a priest to me. And since you have forgotten the law of your God, I also will forget your children."

Manga negligentia culpa est, magna culpa dolus est - Gross negligence is a fault, gross fault is a fraud

Idem est scire aut scire debet aut potuisse - To be able to know is the same as to know

Nemo ex alterius facto praegravari debet - No man ought to be burdened in consequence of another's act

We are deeply concerned by ... and call on you as Our Public Servants, whether in fact or implied, to immediately cease all further installations and operations of the 5G program, until such time as all legal and lawful requirements are met and satisfied, and confirmed in written correspondence, dutifully signed as a lawful document, binding with full and complete liability of your office.

A presenter at the UN recently described 5G as "a war on humanity" due to the serious nature of technology being imposed upon a largely nescient public. As such, any inaction shall be interpreted as a deliberate attack on the population and environment in Australia, and will be treated accordingly.

We trust that you understand,

[21st January 2021]
